

CHIC CATALOGUS

Defining your personal interior style often starts with your choice of dinnerware. It reflects your lifestyle, your way of dining. The importance of presentation is without doubt the key feature to a successful dinner.

The power of tableware lies within its capacity to enhance the dining experience, without taking the spotlight away from the dishes. It

enriches the total food experience.

Keeping that in mind, the Belgian brand CHIC brings you unique and timeless designed tableware, in combination with unique material features. Currently, the tableware industry is strongly focused on design, while the user friendliness of the items is often forgotten. To counter this, CHIC aims to produce user-friendly

products with an added value. The different product lines of the brand CHIC are developed with the vision to combine an elegant design with innovative materials (e.g. lightweight material, magnesium porcelain, mass coloured) that on their turn meet the user requirements. With its innovative tableware products you'll be able to create a food presentation that satisfies your own wants and needs.

# PERLA

Perla (referencing the beautiful white round pearls from pearl oysters) is a symbol of innovation in several ways. It's the "top of the bill" collection from CHIC, where elemental natural beauty got combined with updated styling. The Perla collection is made of the unique formulation SiloxiHT. This formulation consists of a blend of quality materials, which allows the product to be thinner, more durable, lighter in weight and more translucent than any porcelain product. SiloxiHT guarantees fine bone china looks with robust characteristics. Above this, the

durable and lightweight material is a good feature for the catering and restaurant staff, but also perfectly suited for the airline industry. Both the chef and the person who serves the plates like to work with it.

Perla boasts a magnificent gloss and organic round shapes, which are unique. *"The lightweight nature and durability really appeals to hospitality. The organic shapes look like they add a point of interest but keep quite clean lines, which is ideal. This range is very marketable and the price points make it great value for money"* (Birch, 2018).
